

HGC and Centrin Online launch ibizCloud service in Indonesia

Hutchison Global Communications Limited (HGC) and PT Centrin Online Prima (Centrin Online), a leading Indonesian Internet service provider (ISP) announced launch of ibizCloud in Jakarta, Indonesia. This will provide a one-stop global cloud service that meets the infrastructure and speed requirements of local and international enterprises.

ibizCloud has been tailored to the Indonesian market. HGC provides cloud technologies and service design, as well as international connectivity, and holds a wealth of experience in designing cloud services to suit niche markets. Correspondingly, Centrin Online provides local connectivity and will now be able to offer cloud service instantly without having to go through a product development process. This helps the company meet increasing demand for data exchanges from corporations operating in Indonesia.

HGC x AMS-IX Dusk till Dawn Networking Night

HGC's team at Pacific Telecommunications Council Conference 2017

HGC's team attended PTC'17 in Honolulu, Hawaii.

HGC's team kicked off another fruitful year at the Pacific Telecommunications Council Conference (PTC). Themed *Changing Realities*, PTC'17 was held in Honolulu, Hawaii from 15 to 18 January 2017. HGC's team met with over 100 existing and potential client and partner representatives to explore collaboration possibilities and promote innovative services.

Mr Andrew Kwok attended PTC'17's keynote panel.

Mr Andrew Kwok, the President of International and Carrier Business of HGC, participated in a keynote panel themed “Future-proofing Tomorrow's Carriers Today”, where he exchanged insights with other telecom leaders on how to transform telecom businesses in order to thrive in the coming digital economy. Mr Kwok emphasized the essentiality for telecom companies to change their business models and explore partnership with OTT players to create new revenue streams.
