# HGC AWS Direct Connect

HGC AWS Direct Connect offers an express network enables enterprise to effectively establish connectivity between office location, data centres and disaster recovery sites with greater flexibility to address evolving IT requirements, leveraging HGC's diverse network across the global HGC AWS Direct Connect creates a more efficient and reliable cloud operating environment with improved application performance and network security.

Connection via HGC Multiprotocol Label Switching (MPLS) network

Riding on MPLS network, customers can connect from AWS cloud platform to office with a simple network topology which is stable, private and non-blocking. It is suitable for internal communications including emails, ERP, file transfer as well as data update from office to AWS cloud site. Bandwidth is available from 1Mbps to 1000Mbps.

Connection via HGC Internet backbone

Connected with prominent Internet Exchange (IX), rich in peerings as well as hosting content directly in the network around the world, HGC internet is delivering rich content to diverse range of eyeballs. HGC provides tailor-made solution including customised routings, dedicated port as well as guaranteed bandwidth to ensure high quality services. Bandwidth is available from 1Mbps to 1000Mbps.

Subscribing HGC AWS allows customers to enjoy enhanced internet performance and network availability, as well as reaching their target eyeball efficiently.

Features	Benefits
Readily connected to AWS	Quick implementation Connectivity directly configured into cloud virtual machine
Private or Internet network present	HGC provides one-shop solution for hybrid networking Customer freely select a suitable network to connect the resources Scalable from small bandwidth to full port speed
Connected to MPLS network	Ability to connect rest of the world with high security Safely run business application via secure private network
Customised IP route	Improve apps performance Reach target eyeball
Premium supports	Network consultancy and project management 7x24 technical support
