

Thank you for a great PTC 2019!

PTC is regarded as Pacific Rim's premier telecommunications event and acts as a strategic springboard for the global communications industry to explore business opportunities.

Moreover, it has been a great time for us to meet our friends at the start of the year under the relaxing atmosphere!

Beyond Possibilities

Our Key Focus

Sharing our strategic focus in the conference, highlighting intelligent SDN network management and API integration platform, BDX data centres across asia, and dedication to catch eyeballs worldwide with OTT partners, etc. It is our commitment to continue network expansion and innovate with on-trend ICT solutions. API

Beyond

SDN
(SOFTWARE-DEFINED NETWORK)

Intelligent & centralized network management anytime & anywhere

"Transforming our global network with SDN revolution allowed us to quickly introduce new and innovative customer services that are enabling improved agility fulfilling our customers' business needs."

Victor Tang, AVP, Product & Network Management
Victor.tang@hgc.com.hk

API PLATFORM
Fully Integrated To Smoothen Communication

"To stay competitive in telecom market, the agility and capability to leverage talco resources to capture business opportunities are important. HGC newly established API Hub which enables integration of APIs in multiple systems efficiently and allows us to open up resources via API in a fast and secure manner. The 1st service riding on HGC API Hub is A2P SMS, and more services are coming, stay tuned!"

Wing Lam, AVP, Product & Business Development

HGC SHINES AROUND THE GLOBE

HGC & GTMH “Cloud Security and Enterprise Content Management” Seminar

HGC and GTMH successfully organized ‘Cloud Security and Enterprise Content Management’ seminar in Myanmar, attracting 120+ enterprise customers. Under the theme of ‘ICT in Business’, updates on our cloud solution, one-stop ICT services, and cybersecurity along the digitalization trend are discussed!

With our localized expertise and strategic partners, HGC can catalyze the bridging of our Asian and international customers in Myanmar, as well as Greater Mekong Subregion.

HGC launches new POP in Marseille, France

The new PoP is located at a carrier-neutral data centre in Marseille, a major strategic hub serving a community of hundreds of carriers and service providers. HGC can interconnect with the France Internet Exchange for peering, establishing routes between different parties under the telecom ecosystem.

HGC HONORED INTERNATIONAL AWARDS

HGC Scoops over 30 Global and Local Awards in 2018

HGC has won 33 awards in 2018 and it has particularly received encouraging results for its effort in Messaging & SMS, and 'Beyond Possibilities' branding position.

Being recognised with these prestigious accolades underlines HGC's strong position as a trusted partner for mobile operators, A2P enterprises and aggregators, providing proven solutions for A2P monetization, SMS filtering, voice and A2P enablement.

HGC will continue investing in digital strategy to bridge and capture the opportunities to connect the digital world with telecommunications services!

Moreover, these accolades inspire HGC to continue striving for new breakthroughs in creating and delivering communications services and to continuously demonstrate "Beyond Possibilities" to the community.
